1. The KSA Market Opportunity (2026)

Saudi Arabia's **Vision 2030** economic expansion has driven thousands of new service enterprises, SMBs, and contractors into the market. However, two major structural shifts create an urgent operational bottleneck for these companies:

The Twin Compliance & Communication Drivers:

- ✓ **Mandatory ZATCA Phase 2 (FATOORA):** Service companies must generate cryptographic XML signatures, phase-2 compliant QR codes, and establish real-time API integration with ZATCA's portal. Non-compliance leads to severe monetary penalties.
- ✓ **High WhatsApp Business Dependence:** In KSA, email open rates remain low (<18%), while WhatsApp usage is near 100%. Clients expect immediate billing, PDF delivery, and payment links directly on WhatsApp.

The Agency Problem: IT agencies and accounting firms face constant requests from clients to implement ZATCA Phase 2 billing and WhatsApp automation. Building this infrastructure from scratch requires complex cryptographic signing, security certificates (CSID renewal), official Meta API integrations, and cloud hosting compliance, costing over **SAR 150,000+** in custom development.

2. The White-Label Solution for Agencies

Our **Multi-Tenant White-Label Engine** allows your agency to immediately offer a fully branded, end-to-end ZATCA Phase 2 E-Invoicing and WhatsApp Billing Platform to your clients under your own domain, logo, and pricing model.

RE-BRANDABLE DASHBOARD

100% White-Label Platform

- ✓ Your Logo, Brand Colors & Favicon
- ✓ Custom Subdomain (e.g., `billing.youragency.sa`)
- ✓ Branded Invoice PDFs & Custom Email Templates
- ✓ Custom WhatsApp Sender ID / Channel

CORE ENGINE

Automated ZATCA + WhatsApp

- ✓ Automated Cryptographic Hash & XML generation
- ✓ Real-time ZATCA FATOORA Clearance & Reporting
- ✓ Bilingual Arabic/English Compliant PDFs

✓ Complete client isolation & data security

✓ Instant WhatsApp Delivery with Mada / STC Pay links

✓ Automated payment reminders & receipt dispatch

3. Platform Architecture & Compliance Security

Component	Technical Capabilities	Agency & Client Benefit
ZATCA Phase 2 API Engine	ECDSA Secp256k1 signature, X.509 certificate onboarding, Cryptographic Stamp, XML Hash generation, Phase 2 Base64 QR code.	Zero technical debt. 100% automated ZATCA clearance without manual portal uploads.
WhatsApp Middleware API	Official WhatsApp Cloud API framework, automated message triggers, interactive payment link buttons, media attachment support.	Fast collection cycle (<24 hrs). Up to 3x faster payment collection compared to traditional email.
KSA Local Infrastructure	Hosted on KSA Data Residency compliant cloud (AWS Riyadh / STC Cloud), encrypted storage at rest & in transit.	Full alignment with Saudi National Cybersecurity Authority (NCA) and ZATCA data residency rules.
Multi-Tenant Management	Centralized partner admin portal, sub-account provisioning, API credit allocation, automated usage metering.	Provision new client accounts in under 2 minutes with custom billing limits.

4. Partner Monetization & Revenue Model

Agencies purchase wholesale sub-account licenses / API credits at a discounted wholesale tier and re-sell to end-client service companies at standard market rates (or bundle into monthly retainer packages).

Monthly Recurring Revenue (MRR) Example — 30 Service Clients:

- Wholesale Cost to Agency per client: **SAR 150 / month**
- Retail Selling Price to Client: **SAR 450 / month**
- Net Profit per Client: **SAR 300 / month**
- **Monthly Net Agency Profit (30 Clients): SAR 9,000 / month (SAR 108,000 / year)**

5. Agency Partner Subscription Tiers

✓ Wholesale Credit Rate: SAR 120 / client

✓ Email & Ticket Support

✓ White-label Marketing Collateral

✓ Priority 24/7 Technical Support

✓ Dedicated Integration Engineer

✓ Custom SLA & Compliance Guarantee

6. Partner Onboarding Journey (4 Steps)

Step	Action	Deliverable
Step 1: Onboarding	Select Agency Tier & sign Agreement.	Access to Partner Portal & Sandbox environment within 2 hours.
Step 2: Branding Setup	Upload logo, configure custom domain & WhatsApp API credentials.	White-labeled portal ready (e.g., portal.yourbrand.sa).
Step 3: Staff Training	1-on-1 technical & sales enablement session.	Sales pitch decks, demo scripts, and onboarding checklists for your team.
Step 4: Go to Market	Onboard your first client in 2 minutes using pre-configured ZATCA credentials.	Start generating monthly recurring revenue (MRR) instantly.
